Money to loan at 7 percent. Tyler & Donnelly, Att'ys.

Public Sale. The undersigned will offer at public sale, at his residence, in Flatrock township six miles south from Napoleon, on Monday, March 1st, 1886, the following property, to-wit: One horse, 3 cows, 1 Short Horn heifer, 1 Holstein bull, 1 brood sow and pigs, Farmer's friend grain drill, 1 combined sulky corn plow, 1 hay fork and fixtures, plows, drags and other articles. Sale to commence at 9 o'clock, a. m.

Premium List. We this week lay before our readers the premium list of the Third Annual Fair of the Henry County Stock Agricultural Society. The list is much longer than the previous one, and the premiums are much larger. The list should be preserved for future reference. The coming fair will be the best the society has yet held, the officers doing all in their power to correct abuses in former fairs, and to add new features for the exhibition of 1886.

A Good Supporter. Candidates for the different offices must and will learn sooner or later the necessity of having good supporters. In fact it is just as necessary for any party to have good supporters as it is to have good candidates in order to be successful. Now we would advise one and all to call at Saur's Drug and Medicine Depot and take a look at the stock of supporters which he has on hand, and which can be had at less than the usual prices on account of the large demand there is for them now. These supporters are guaranteed to do their work successfully, to give the owner ease and comfort in all positions. A new stock of them has lately been placed on sale at Saur's Drug Store which contains many different kinds and sizes, so that all may and can be suited.

Dr. France in Napoleon. This well known physician who has gained an enviable reputation in the treatment of chronic diseases, will visit Napoleon, at the Miller House, on Tuesday, March 2d. For five years he has been practicing in Ohio, periodically traveling over the same route through twenty five different counties. His practice has steadily increased until it has now undoubtedly become more extensive than that of any other physician in the state. This rapidly increasing practice fairly indicates the remarkable success which he has met with in the treatment of cures. He has had hundreds of cases in this vicinity who would bear testimony to his skill if called upon, but he refrains from publishing their names to advertise himself out of consideration for those who naturally shrink from having themselves paraded before the public, and they thank him for his consideration.

A Thrifty Town. OKOLONA, O. Feb. 23, 1886.

Ed. Northwest.—Seeing that communications occasionally appear in your columns, from different parts of the county, I venture to send you a few items from Okolona. This place, as is shown on the county map, is a station on the W. St. L. & P. railway about five and one-half miles west of Napoleon, and near the Defiance county line. It has a population of about 100 souls, all counted, occupies about five acres of ground, and is altogether rather a distinctive town. But, while it does not loom up in point of size and population, Okolona is not to be despised, and is by no means an insignificant place, in proof of which it is but necessary to make a showing of the volume of business transacted at the place during the past year as shown by the books of the accommodating agent of the Wabash R. R. Co.:

During 1885 there was shipped from this point 92 car loads of grain and 55 car loads of stock, and during the month of January, 1886, 23 car loads of stock, making a total of 78 car loads of stock; which at an average of 20,000 pounds to the car would give a total weight of 1,560,000 pounds, this at 25 cents a pound makes the handsome sum of \$39,000 distributed from this point for stock alone. Add to the value of the grain, and 60,000 dozen of eggs 'at were shipped from this point last year, and you will find our little place doing a volume of business that aggregates \$11,000 a year. This favorable showing is the result of the energy and enterprise of the business men of the place.

J. H. Benien, general merchandise and grain dealer, has for years been the backbone of the town, and the honors are now divided between him and the firm of Freeman & Schlusser, a new firm, having been in business as general merchandise for a year, and are rapidly increasing in favor.

In the person of J. H. Benien, Okolona has the honor of showing a Democratic Postmaster, who held his office during repeated terms of Republican administrations, and the fact ought to be regarded as an example of Republican liberality and placed in justification of the holding of the offices by a horde of Republicans under a Democratic administration. But suppress the fact that Hon. John Sherman wrote to a prominent Republican of the county asking him to recommend some reliable Republican for the place. It was not done, for the reason that Okolona didn't contain a single Republican, and consequently enjoyed a Democratic postmaster.

This point is the terminus of the so-called "Hanoverian Settlement," which extends north into Fulton county and west into Defiance county, and embraces as finely improved and well cultivated farms as can be found in the state.

That the "Dutch" of this settlement are a frugal and industrious people is evidenced by the splendid farms they possess—the fruits of hard labor, early and late, as most of them came to this country with no capital except a stout frame and willing hands.

The "Settlement" is decidedly Democratic in politics, as it numbers in three townships over 700 votes, it is a factor in the politics of Henry county not to be despised, and has its representatives in the offices in the persons of Treasurer Holtermann, Commissioner Rohrs and Auditor Evers, and that they are discharging their duties in a capable and proper manner no one will deny. Although, as is shown by some resolutions adopted in the Court House a few weeks ago, the stand Commissioner Rohrs has taken in reference to the improvement of the Bryan pike is creating violent opposition in some sections of the county, which culminated in the adoption of the aforesaid resolutions.
